

**The Golden Ratio:**  
Ideal solutions  
based on simple laws

$$r(\vartheta) = \varphi^{2\vartheta/\pi}$$

# SWISSCOOL 8000

THE NEW POLYMER-TECHNOLOGY FROM MOTOREX  
FOR THE BEST PERFORMANCE

# SWISSCOOL 8000

FOR MAXIMUM PRODUCTIVITY AND PROCESS RELIABILITY WITH LOW OPERATING COSTS

## Up to 30% better performance

In conventional water miscible cutting fluids, each additive has its own separate function. In our new polymer-technology, the additives work together as a team. This yields performance improvements of up to 30% compared to traditional cutting fluids.

## Highly effective corrosion protection for a wide spectrum of applications

The new polymer-technology in SWISSCOOL 8000 protects both machine and workpiece against corrosion and permits smooth cutting of critical aluminum alloys, titanium and high-alloy steel.

## Low consumption

SWISSCOOL 8000's new polymer-technology has excellent flushing properties, keeping the machine very clean and reducing consumption to a minimum.

## Optimum process reliability

The new polymer-based emulsifier not only makes it possible to combine oil and water, but also boosts lubrication performance. It additionally ensures machining process reliability with preparation water hardness from 5°dH to 20°dH.

## Excellent biostability

The complex structure of the new polymer-technology hinders nutrient intake by bacteria, thereby naturally inhibiting their growth.

## Conforms to current regulations

The innovative formula is free of chlorine, boric acid and formaldehyde depot substances. This makes it very gentle and ensures excellent compatibility with people, materials and machines.

# INDUSTRIALLINE

LIQUID EFFICIENCY WITH MOTOREX!

EXPERIENCE **SINCE 1917**

## INDUSTRIALLINE | A wide range of products

- | Spindle oils and coolants
  - | Water-miscible coolant-lubricants
  - | Cutting oils
  - | Grinding fluids
  - | Forming oils
  - | EDM oils
  - | Slideway oils
  - | Anti-corrosion fluids
  - | Cleaners
  - | All-purpose sprays
- SPINDLELINE**
  - SWISSCOOL**
  - SWISSCUT**
  - SWISSGRIND**
  - SWISSFORMING**
  - SWISSFINISH**
  - SWISSGLIDE**
  - SWISSPROTECT**
  - SWISSCLEAN**
  - SPRAYLINE**
